RENO
CONTRACTING

February 10, 2005

Gary E. Jackson, President
Waterfountains.com, Inc.
[redacted]

Dear Gary,

I just wanted to take a second and acknowledge a job well done. The Ridge Park Office Center was a challenge for all and I thank you for taking a lead roll in helping us get through this challenging job. As a supplier you went beyond just supplying and offered expert advice on design, systems and structure. I do appreciate you coordinating with us and the Architect along with Mission Pools. You provided a superior product, expert advice and design and delivered on time. You worked with our delivery and installation schedule in lieu of dictating yours. I would highly recommend you to other clients and if the need arises will call on you again. Please feel free to use me as a reference and I can be contacted through our main office at [redacted] for the job well done!

Sincerely

[redacted]

Tom Dances
